Benjamin Williams

iOS / Software Engineer

Charlotte, NC | (864) 616-7390 | benwilliams0540@gmail.com

SKILLS

Languages	Swift • Objective-C • Kotlin • Java • Python • Go
Development Tools	Xcode • Swift Package Manager • Linux Tuist • Bitrise CI • Fastlane
Architectures	MVP • MVVM • MVC • The Composable Architecture
Libraries	SwiftUI • UIKit • APNs • Firebase • SQLite LaunchDarkly • Vapor Server

EXPERIENCE

Senior iOS Developer | Phillips Auctioneers Apr 2024 - Apr 2026

- Led the architecture and development of a new iOS app built with The Composable Architecture (TCA) and SwiftUI
- Implemented real-time bid updates using a WebSocket-based messaging system, with APNs used for less time-sensitive updates
- Designed and maintained CI/CD pipelines using Xcode Cloud
- Adopted Tuist to manage modular Xcode project configuration and Swift Package structure

Principal Engineer | Ally Financial Nov 2021 - Dec 2023

- Created an internal demo application using SwiftUI that allowed UX partners to rapidly review and iterate on their designs
- Transitioned the team to the Bitrise CI/CD service by setting up build pipelines
- Architected a modular app design to reduce the time required for developers to implement new features

Senior iOS Developer | TIAA Jul 2017 - Nov 2021

- Reviewed code committed by team members to ensure code quality and consistency
- Implemented a core design framework using an MVVM architecture to unify the app's user interface
- Coordinated Xcode upgrades as necessary to comply with App Store submission requirements
- Delegated tasks to junior developers and provided guidance

EDUCATION

BS Computer Science | Clemson University May 2017
